

PROJECT IDEA

Kindness Rock Garden *By Linda Rosen*

The Kindness Rock Garden is a very special community project for a school or neighborhood. The students create their own beautiful rocks with positive words and pictures on them. We made a special rock garden in front of our school in memory of loved ones. You can also donate them to hospitals or place them around the community.

HOW TO

1. Collect or purchase small rocks, paint and paint brushes (and resin if you choose to use it).
2. Paint each rock.
3. Use a sharpie to add words with special meanings, uplifting messages, images, and other details to each rock.
4. Optional: Use the resin to seal the painted rocks with a glossy finish.
5. Let dry overnight.
6. Place rocks in a special garden, give to those in need of uplifting, or place around the community.

ITEMS NEEDED

1. Rocks
2. Paint
3. Paint brushes
4. Sharpie or other permanent markers
5. Resin sealer (optional)
