

PROJECT IDEA

Peace Flags *By Linda Rosen*

The Peace Flags is a project where students create their own unique beautiful flags with peace signs, kind words and symbols to help make our world a more peaceful place. It is believed that the flags help send wishes of goodwill and mantras blown by the wind to spread compassion to all. You can hang these in your community or a place you would like to spread compassion to help others.

HOW TO

1. Gather or purchase colored square cloth material and fabric markers. If the cloth is not already in a square shape, you can cut it into your desired shape.
2. Have students get creative and decorate their flags with kindness quotes, mantras, peace signs and designs.
3. Hang the flags on strings to be hung and displayed somewhere special (particularly somewhere they want to promote loving kindness).

ITEMS NEEDED

1. Colored cloth material
2. Fabric markers and Sharpies
3. String
4. Scissors (optional, to cut fabric and string)
