

Bricks Busting Boredom

[Bricks Busting Boredom](#)'s goal is to collect and donate new and used sets to children in local children's hospitals, homeless shelters, and emergency shelters across the United States. BBB sanitizes all pre-owned LEGO before disbursing them.

HOW TO

Have a donation drive at your school. (See supply list to the right.)

Contact ambassadorsupport@km365.org with the dates of your drive to coordinate a time/place for delivery or pick up of your donations.

OR

If your club/school/organization is in Southern Palm Beach/Northern Broward County, Florida, let families know that a donation bin is available at the Subway at 19605 State Rd South 7, Unit 19605-C, Boca Raton, FL 33498:

[Flyer to share details](#)

IMPORTANT NOTE: No donation is too small!!!! A snack-sized zipper bag of LEGO makes a difference.

CONNECTION

Bricks Busting Boredom began when kids noticed their friend had nothing to do while in the hospital. They asked themselves what they could do to help. From that, a foundation was born that now can help children all across the country.

SUPPLIES

To Make a Donation Bin:

- one large box
- paint / paint brushes
- 6 paper bowls
- stapler or glue
- [Flyer for your donation bin](#)

Glue or staple the bowls to the bin to form the studs on the LEGO brick. Paint the box and the studs all in the same color. Ta Da! - you have a LEGO shaped donation bin!

While we don't all have the ability to start foundations, we can all pay attention to see what needs there are in our communities and figure out what skills we have to help solve the problems.

Why is it our responsibility to pay it forward and help the people around us? Do you think it's important for you and your families to participate and contribute to organizations and outreach programs in the community?

How can you make a difference after what you learned today?

Is there anything about this project that inspired you that you'd like to share with others?

Contact ambassadorsupport@km365.org for questions or comments. 😊
