

Project Idea: Be the "I" in KIND

Ask administration if kids can take pictures in with the sign...and maybe write one way they are the "I" in Kind on a bulletin board next to the sign, invite 5 kids to go on the morning announcements for a week to share how they can be the "I" in kind; ASK YOUR KIDS how they would like to spread this message - what do they think would resonate with their peers – and see if you can make that happen together!

The simple message on this poster reminds students of their role in spreading kindness. Hang your poster in a highly trafficked area of the school, like a hallway near the cafeteria or the wall near the exit to the playground. Discuss the different locations and how to engage others around the school. Photos and videos for social media or get caught 'being the I in KIND' school announcements.
