

Compassion Rainbow

Students will work together to create a big poster of Kindness Clouds out of individual, hand cut outs. The clouds can be titled "Be a Rainbow in Someone Else's Cloud" or "Be the Reason Someone Smiles Today". Instruct students to trace his/her handprint onto a piece of paper and then cut it out. Students should have at least 3 handprints. On each print, students should either illustrate or write acts of kindness that include compassion and empathy. After each student has written and decorated his/her handprint, you will place them in 3-5 different arches as rainbows on top of the white clouds. Have a discussion about the responses that the students wrote/illustrated.
